

# IAGO B. PADILHA

## BACKEND PROGRAMMER

I am a backend developer, completing the third year of the technical course in IT. I'm looking for internship opportunities. During my studies, I developed several projects with their own difficulties. Focused on **Python**, with experience in **Java, C, and C#**. Always seeking continuous improvement.

## GOALS

Embark on my career as a developer, utilizing my technical background to contribute to impactful and creative projects under the guidance of a company dedicated to innovation.

## EDUCATION
